SAFETY DATA SHEET

1. Identification

Product identifier: Hibitane® DISINFECTANT

Other means of identification

Synonyms: Hibitane * Nolvasan Solution * Chlorhexidine acetate 2% disinfectant

Recommended use: Veterinary product used as disinfectant

Recommended restrictions: Not for human use

Manufacturer/Importer/Supplier/Distributor information

Company Name (USA): Zoetis Inc.
10 Sylvan Way
Parsippany, New Jersey 07054 (USA)
Rocky Mountain Poison and Drug Center
1-866-531-8896
Product Support/Technical Services
1-800-366-5288
Emergency telephone numbers
CHEMTREC (24 hours): 1-800-424-9300
International CHEMTREC (24 hours): +1-703-527-3887

Company Name (CA): Zoetis Canada Inc.
16740 Trans-Canada Highway
Kirkland, Quebec, H9H 4M7
Emergency telephone number
International CHEMTREC (24 hours): +1-703-527-3887
Contact E-Mail: productsupport@zoetis.com
Product Support: 1-800-461-0917

All Safety Data Sheets are available via our Zoetis Canada website at https://www.zoetis.ca/sds/sds.aspx

Supplier

Not available.

2. Hazard(s) identification

Physical hazards: Not classified.

Health hazards: Acute toxicity, inhalation Category 4

Environmental hazards: Hazardous to the aquatic environment, acute hazard Category 2
Hazardous to the aquatic environment, long-term hazard Category 2

Label elements

Signal word: Warning

Hazard statement: Harmful if inhaled. Toxic to aquatic life with long lasting effects.

Precautionary statement

Prevention: Avoid breathing mist/vapours/spray. Use only outdoors or in a well-ventilated area. Avoid release to the environment.

Response: IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTRE/doctor if you feel unwell. Collect spillage.

Storage: Store away from incompatible materials.
Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards
None known.

Supplemental information
May cause eye and skin irritation. May cause mucous membrane and respiratory tract irritation.

3. Composition/information on ingredients

Mixtures

4. First-aid measures

Inhalation
Move to fresh air. Call a physician if symptoms develop or persist. For breathing difficulties, oxygen may be necessary.

Skin contact
Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Eye contact
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. Remove contact lenses, if present and easy to do.

Ingestion
IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician. Rinse mouth. Do not induce vomiting without advice from poison control center. Never give anything by mouth to a victim who is unconscious or is having convulsions.

Most important symptoms/effects, acute and delayed
May cause eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause skin irritation. Signs and symptoms might include skin rash, itching, redness or swelling. Inhalation may cause difficulty breathing, chest tightness, and respiratory irritation with coughing, wheezing, and sputum generation.

Indication of immediate medical attention and special treatment needed
Treat symptomatically.

General information
IF exposed or concerned: Get medical advice/attention. For personal protection, see section 8 of the SDS. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions
Move containers from fire area if you can do so without risk.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Ensure adequate ventilation. Ventilate the contaminated area. Do not breathe mist or vapour. Avoid contact with eyes, skin, and clothing. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. For personal protection, see section 8 of the SDS. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up

Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Avoid release to the environment. Prevent entry into waterways, sewer, basements or confined areas. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area).

Large Spills: Stop the flow of material, if this is without risk. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Environmental precautions

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

7. Handling and storage

Precautions for safe handling

Use only with adequate ventilation. Keep away from heat, sparks and open flame. Wear personal protective equipment. Avoid breathing mist or vapour. Avoid contact with eyes, skin, and clothing. Do not taste or swallow. Wash thoroughly after handling. When using, do not eat, drink or smoke. Avoid release to the environment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store locked up. Store in tightly closed original container. Store in a well-ventilated place. Store out of direct sunlight in dry, dark conditions. @ 15-30°C (59-86°F). Protect from heat and light. Do not allow material to freeze. Store away from incompatible materials (see Section 10 of the SDS). Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs.

8. Exposure controls/personal protection

Occupational exposure limits

Other information
  Explosive properties Not explosive.
  Oxidising properties Not oxidising.

10. Stability and reactivity
Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability Material is stable under normal conditions.
Possibility of hazardous reactions Hazardous polymerisation does not occur.
Conditions to avoid Contact with incompatible materials. Sunlight. Exposure to light. Protect from freezing.
Incompatible materials Strong oxidising agents.
Hazardous decomposition products Irritating and/or toxic fumes and gases may be emitted upon the product’s decomposition. Carbon oxides. Nitrogen oxides (NOx). May include hydrogen chloride.

11. Toxicological information
Information on likely routes of exposure
Inhalation Harmful if inhaled. May cause mucous membrane and respiratory tract irritation.
Skin contact May cause skin irritation.
  Chlorhexidine acetate Species: Rabbit Severity: Mild
  Polyethylene Glycol Octylphenol Ether Species: Rabbit Severity: Mild
  Sodium hydroxide Species: Rabbit Severity: Mild
Eye contact May cause eye irritation.
  Polyethylene Glycol Octylphenol Ether Species: Rabbit Severity: Moderate
  Chlorhexidine acetate Species: Rabbit Severity: Severe
  Sodium hydroxide Species: Rabbit Severity: Severe
Ingestion Health injuries are not known or expected under normal use. Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics May cause eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause skin irritation. Signs and symptoms might include skin rash, itching, redness or swelling. Inhalation may cause difficulty breathing, chest tightness, and respiratory irritation with coughing, wheezing, and sputum generation.

Severity: Moderate

Chlorhexidine acetate
Species: Rabbit
Severity: Severe

Sodium hydroxide
Species: Rabbit
Severity: Severe

Respiratory or skin sensitisation
Canada - Alberta OELs: Irritant
Sodium hydroxide (CAS 1310-73-2) Irritant
Respiratory sensitisation
Not a respiratory sensitizer.
Skin sensitisation
This product is not expected to cause skin sensitisation.

Germ cell mutagenicity
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Mutagenicity
Chlorhexidine acetate
In Vitro Cytogenetics
Result: negative
Species: Chinese Hamster Ovary (CHO) cells

In Vivo Micronucleus
Result: negative
Species: Rat Hepatocyte

Mammalian Cell Mutagenicity
Result: negative
Species: Mouse Lymphoma

Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Reproductive toxicity
This product is not expected to cause reproductive or developmental effects.

Developmental effects
Chlorhexidine acetate
31.25 mg/kg/day Embryo / Fetal Development, Maternal toxicity
Result: LOEL
Species: Rat
Organ: Oral

62.5 mg/kg/day Embryo / Fetal Development, No effects at maximum dose
Result: NOEL
Species: Rat
Organ: Oral

Specific target organ toxicity - single exposure
Not classified.

Specific target organ toxicity - repeated exposure
Not classified.

Aspiration hazard
Not an aspiration hazard.

Chronic effects
Prolonged inhalation may be harmful.

12. Ecological information
Ecotoxicity
Toxic to aquatic life with long lasting effects. Avoid release to the environment.
Components | Species | Test results
--- | --- | ---
Acetic acid (CAS 64-19-7) | Mysis bahia (Mysid Shrimp) | LC50 100 - 300 mg/l, Hours
 | Pimephales promelas (Fathead Minnow) | > 315 mg/l, 1 Hours
 |  | 122 mg/l, 24 Hours
Aquatic | Water flea (Daphnia magna) | EC50 65 mg/l, 48 hours
Crustacea | Lepomis macrochirus (Bluegill Sunfish) | LC50 75 mg/l, 96 hours
Fish | Oncorhynchus mykiss (Rainbow Trout) | LD50 1.9 ppm, 96 Hours
Chlorhexidine acetate (CAS 56-95-1) | Daphnia Magna (Water Flea) | EC50 0.06 mg/l, 48 Hours
 | Lepomis macrochirus (Bluegill Sunfish) | LC50 0.6 ppm, 96 Hours
 |  | 1.9 ppm, 96 Hours
Polyethylene Glycol Octylphenol Ether (CAS 9002-93-1) | Water flea (Ceriodaphnia dubia) | EC50 34.59 - 47.13 mg/l, 48 hours
Aquatic | Bluegill (Lepomis macrochirus) | LC50 2.8 - 3.2 mg/l, 96 hours
Fish | Western mosquitofish (Gambusia affinis) | LD50 125 mg/l, 96 hours
Polyethylene Glycol Octylphenol Ether (CAS 9002-93-1) | Bluegill (Lepomis macrochirus) | LC50 2.8 - 3.2 mg/l, 96 hours
Sodium hydroxide (CAS 1310-73-2) | Water flea (Ceriodaphnia dubia) | EC50 34.59 - 47.13 mg/l, 48 hours
Aquatic | Lepomis macrochirus (Bluegill Sunfish) | LC50 0.6 ppm, 96 Hours
Fish
Persistence and degradability | No data is available on the degradability of this product.
Bioaccumulative potential | No data available.
Mobility in soil | No data available.
Other adverse effects | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations
Disposal instructions
Avoid release to the environment. Do not discharge into drains, water courses or onto the ground. Do not contaminate ponds, waterways or ditches with chemical or used container. Considering the relevant known environmental and human health hazards of the material, review and implement appropriate technical and procedural waste water and waste disposal measures to prevent occupational exposure and environmental release. It is recommended that waste minimization be practiced. The best available technology should be utilized to prevent environmental releases. This may include destructive techniques for waste and wastewater. Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose of in accordance with all applicable regulations.

Local disposal regulations
Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information
TDG
Not regulated as dangerous goods.
IATA
UN number | UN3082
UN proper shipping name | Environmentally hazardous substances, liquid, n.o.s. (Chlorhexidine acetate)
Transport hazard class(es) | 9
Class
Subsidiary risk
Packing group
Environmental hazards | Yes

Material name: Hibitane® DISINFECTANT
978 Version #: 01 Issue date: 22-May-2017
SDS CANADA
Special precautions for user: Read safety instructions, SDS and emergency procedures before handling.

IMDG

UN number: UN3082

UN proper shipping name: Environmentally hazardous substances, liquid, n.o.s. (Chlorhexidine acetate), MARINE POLLUTANT (Chlorhexidine acetate)

Transport hazard class(es):
- Class: 9
- Subsidiary risk: -
- Packing group: III

Environmental hazards:
- Marine pollutant: Yes
- Not available.

EmS

Special precautions for user: Read safety instructions, SDS and emergency procedures before handling.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code:

IATA; IMDG

Marine pollutant

General information:

IMDG Regulated Marine Pollutant. As of January 1, 2015, materials offered for transport that are classified for transportation only as Marine Pollutants and which are packaged in single or combination packagings containing a net quantity per single or inner packaging of 5 Liters or less for liquids or having a net mass per single or inner packaging of 5 kilograms or less for solids are NOT subject to ICAO/IATA, IMDG, or ADR transport regulations provided the general packaging requirements of those regulations are met. Refer to ICAO/IATA A197, IMDG 2.10.2.7, ADR SP 375.

15. Regulatory information

Canadian regulations:

This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.

Controlled Drugs and Substances Act

Not regulated.

Export Control List (CEPA 1999, Schedule 3)

Not listed.

Greenhouse Gases

Not listed.

Precursor Control Regulations

Not regulated.

International regulations
Stockholm Convention
Not applicable.
Rotterdam Convention
Not applicable.
Kyoto protocol
Not applicable.
Montreal Protocol
Not applicable.
Basel Convention
Not applicable.
